

## Bikespace Analysis - Damaged Bicycle Parking Reports

Updated August 22 2024

20 BikeSpace damage reports with nearby City bicycle parking features

### NOTES

- Includes relevant BikeSpace reports on or after 2023-01-01
- Coordinate reference system for lat/long values is WGS84 (EPSG:4326)
- For any questions about this sheet, please contact [bikespaceto@gmail.com](mailto:bikespaceto@gmail.com)

### TABS

- **MatchesDisplay**: display of damaged bicycle parking reports alongside nearby City of Toronto parking features  
Damage reports are ordered by date descending (most recent first)  
Thumbnail maps: orange triangle is location of damage report  
blue dots are locations of nearest City bicycle parking features (max 5)  
Then damage report listed first, followed by data from applicable City features  
Some City features are based on exact matches determined by volunteer site survey  
Otherwise, up to 5 estimated matches are shown within a 30m radius of the report  
The 'match\_type' field indicates whether the matches are surveyed or estimated.
- **MatchesTable**: display of damaged bicycle parking reports alongside first match from nearby City of Toronto parking features  
Damage reports are ordered by date descending (most recent first)
- **DamageReports**: data table for damaged bicycle parking reports
- **CityFeatures**: data table for City of Toronto parking features matched with damage reports  
(Note that the same features may be listed more than once)

### SOURCES

User reports of damaged bicycle parking are from the BikeSpace app ([bikespace.ca](https://bikespace.ca))

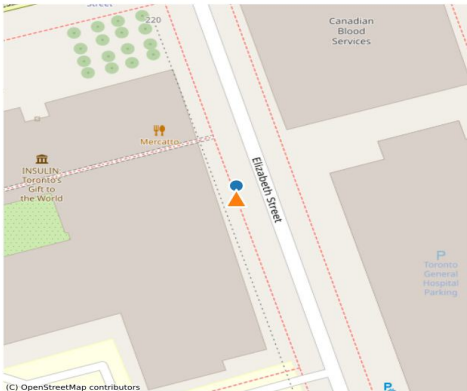

BikeSpace damage reports are checked for data quality.

Resolved issues, known test entries, duplicates, and reports not on City property are omitted.

City of Toronto bicycle parking features are from the following datasets:

- Bicycle Parking - High Capacity (Outdoor)
- Bicycle Parking Racks
- Street Furniture - Bicycle Parking
